September 28, 2026

Dear Mr. Garcia,

Greetings of peace and good day!

We hope this letter finds you well. On behalf of The Technopacer, we would like to express our sincere gratitude for your willingness to serve as Layout and Cartooning Trainer and Resource Speaker for The Technopacer Fortune Towne Workshop. Your time and expertise mean a great deal to us, and we do not take your commitment lightly.

With sincere apologies, **we are writing to inform you that the workshop, originally scheduled for October 2 to 3, 2026, has to be moved to October 19 to 20, 2026.** We recognize that this change may cause inconvenience to your schedule, and we are truly sorry for it.

The reschedule came about because of unforeseen circumstances. The processing of the required documents took longer than we expected, and we were not able to complete the needed approvals in time for the original dates. On top of this, the school has a number of activities lined up, including the midterm examinations and the intramurals, which would have affected the participation of our attendees and the smooth flow of the program.

We understand that this is a late adjustment, and we humbly ask for your kind consideration and understanding. We can assure you that the new dates are firm and that we have taken the necessary steps to make sure no further changes will be needed. Nonetheless, the program flow remains as is, and only the dates have been adjusted. Should the new schedule conflict with your availability, please feel free to let us know so we can discuss possible arrangements.

Thank you very much for your patience, generosity, and continued support. We look forward to the opportunity of working with you on October 19 and 20.

Respectfully yours,

The Technopacer – Fortune Towne Editorial Board
